DataDesk HP 100

Attaché case for notebook and HP OJ 100 printer. Working on the move from inside a case.

The professional, transportable and lockable office for working on the move with a notebook and printer. These devices are attached in the hard shell of the case. The notebook is fixed via 3M dual lock attachments and support brackets made from plastic. The printer is embedded in the bottom of the case in a shape intended for it. The mobile computer accessories are perfectly protected by the aluminium frame design; the side walls of the case are made from light and long-lasting 'Conpearl' plastic. The DataDesk HP 100 is lockable and comes with two keys.

The interior of the attaché case, which contains the mobile hardware, is made from thermoformed ABS. The notebook is fixed via 3M dual lock attachments and support brackets made from plastic for notebook sizes of up to 365 x 315 x 45 mm. The printer fits perfectly into the ABS shape in the bottom of the case it was intended for, thus the notebook and printer remain wired into the case when in use. Paper guide is space-saving and crease-resistant beneath the notebook platform. The electricity supply of the notebook and printer takes place via a 220V low heat device connector on the case outer shell. The detachable case lid offers generous space for storing mobile accessories; one of the pockets can be locked with a combination lock. *All the devices pictured (such as notebook, printer etc.) are not included!

14-15.4
Art.No.: D30408
Weight: 5.3kg / 11lbs, 10.9ounces

≤ 14.37 x 1.77 x 12.4 inches
≤ 365 x 45 x 315 mm

≤ 14.37 x 1.77 x 12.4 inches
≤ 365 x 45 x 315 mm

- **Particularly stable housing**
- **220V low heat device connector to the case outer shell**
- **3D USB cable USB A to USB B included**
- **Lockable case, two keys included**
- **Precise fit for the HP OJ 100 printer**
